HALO BI-VIEW Double panel medicine cabinet 6-7

HALO TRI-VIEW Triple panel medicine cabinet 8-9

HALO TALL VIEW 10-11

ADDITIONAL GLASS SHELVES 12

3900K BRIGHT WHITE LIGHT

Kelvin (K) is a unit of measurement used to describe the hue of a specific light source. This is not necessarily related to the heat output of the light source but rather the color of the light output. Kelvin values below 3500K will have a warmer, yellowish hue. Values between 3500K and 4500K will be in the white hue range. All values higher than 4500K will tend to have a more bluish hue. The prominence of the hues will increase as the values move away from the white hue's range. Daylight typically falls into the 5000-6000K range.

Lumens (lm) is the measure of the total quantity of visible light emitted by a source.

ON/OFF touch switch with dimmer

2 electrical outlets (1 for Halo Tall View) & 2 USB ports included

Soft-close door with Blum® hinges

HALO SINGLE VIEW SINGLE PANEL MEDICINE CABINET

5 year limited warranty
